

WP OWNERS CORP.

PRESENTS

2011

COMMUNITY SERVICE AWARDS

HONORING

Larry Kinitsky & Jack Friedman
to benefit PBC on behalf of Arlene Pino

APRIL 3, 2011

Dear Award Luncheon Attendees,

Let me introduce myself. My name is Linie Moore, founder and president of the Primary Biliary Cirrhosis Organization, also known as the PBCers. We are a closely-knit virtual group of almost 3,000 members worldwide, dedicated to offering help and support to Primary Biliary Cirrhosis (PBC) patients. As a registered non-profit, the PBCers is also committed to raising public awareness and funds for PBC research.

PBCers around the world offer sincere thanks to Larry Kinitsky and the WP Owners Corporation for their generosity and hosting today's luncheon to benefit Primary Biliary Cirrhosis in memory of Arlene Pino. She was a member of the PBCers and loved by many. Arlene bravely fought PBC to the end and she would be greatly honored knowing this event is in her memory.

Primary Billiary Cirrhosis (PBC) is a rare autoimmune liver disease that slowly destroys the liver's bile ducts which ultimately leads to cirrhosis and liver failure. Women are affected 10 times more than men are. For many years, PBC was called the "Silent Killer" because it was not diagnosed until liver failure, and most patients were between the ages of 35 to 60. With new medical testing and doctors more knowledgeable in the field of PBC, patients are being diagnosed at a younger age. The youngest member in our organization is 12. The cause of PBC is unknown, but it is not alcohol or drug related. There is no cure and the only treatment available for end stage liver disease is an organ transplant. Even today, hundreds die each year while waiting for their Gift of Life.

The PBCers Organization is operated solely by volunteers with no paid employees. One-hundred percent (100%) of all donations received are used to fund PBC education and research projects through medical facilities such as University of California at Davis, Cleveland Clinic, Columbia University and Mayo Clinic to name a few.

Since January 1996, the PBCers have accomplished more than ever dreamed possible. We offer various venues for education and support to PBC patients. We host national PBC conferences and local groups are organized in most states, as well as outside the US. Our members have raised over two million dollars for research and many have participated in numerous research projects. Most members traveled hundreds of miles to donate blood and other body fluids.

Through PBCers participation, researchers now have a clearer picture of PBC, although there still remain many challenges. PBC is no longer called the "Silent Killer" and Ursodiol treatments help slow the disease progression. There are a number of new studies including symptoms of PBC such as itching and fatigue. An important advancement is the PBC animal model, which will provide additional answers and laboratory findings concerning the T-cells immune response to infections in PBC. As our dedicated researchers look for answers, the PBCers will continue to raise funds to help researchers find those answers.

We wish to thank you in advance for your generosity and help. Your help brings us one-step closer to researchers finding the cause and cure for PBC. Giving hope to all patients who suffer from Primary Biliary Cirrhosis.

Sincerely,

A handwritten signature in cursive script that reads "Linie Moore".

Linie Moore

President, PBCers Organization

Larry Kinitsky

Larry has had a long and distinguished career in bank marketing. Currently he is Senior Vice President of Dime Savings Bank of Williamsburgh.

In 1985, he was elected President of WP Owners Corp., one of the largest co-ops in Queens. As President, Larry has worked tirelessly for over 25 years to make Windsor Park and the surrounding communities better places to live. Larry is recognized by his peers as an expert in Coop and Condo management and his opinions on critical issues effecting them are often cited in the media. In 1993, he formed WP Charities, the fund-raising arm of the co-op. Since its inception, WP Charities has donated almost \$400,000 to deserving organizations. Those benefitting include Autism Speaks, Helen Keller Services for the Blind, March of Dimes, Schneider Children's Hospital, Ronald MacDonald House, Mid Queens Fresh Meadows Boys and Girls Club, Friends of 9/11 and at least 30 other local organizations.

For several years Larry served on the Advisory Committee of the MQFM Boys and Girls Club. In 2000, he was elected to Community Board 11. Larry resides in Bayside with his wife Barbara and son Michael.

Jack Friedman

Jack has been a community leader in Queens for most of his adult life. He was a member of Community School Board 26 for ten years and served on the New York State Joint Legislative Task Force to determine the future role of Community School Boards in New York City. Jack's interest in civic matters began to expand when he served as President of the Cloverdale Gardens Co-Op Board for four years. His community activities continued when he moved to Bellerose Manor, where he joined the Board of Directors of the Rocky Hill Civic Association and served as Vice President for three years.

In 2003, Councilman David Weprin asked Jack to be his Chief of Staff. In 2007, he was selected as the Executive Vice President of the Queens Chamber of Commerce, a position he still holds today.

Jack is currently President of Northeast Queens Jewish Community Council, and Financial Secretary of Bellerose Jewish Center. He is a member of Community Board #13 and sits on the Board of Directors of the Lifeline Center for Child Development, Queens Children's Psychiatric Center, Little Neck Community Council and the National Foundation's High School of Information Technology. Jack and his wife Lori reside in Bellerose and have two children, Daniel and Cara.

April 3, 2011

Dear Friends:

It is an honor to pay tribute to Windsor Park Owners Corporation on the occasion of its 2011 Community Service Awards Luncheon, honoring Larry Kinitsky and Jack Friedman, to benefit Primary Biliary Cirrhosis (PBC) in memory of Arlene Pino. Primary Biliary Cirrhosis is an organization dedicated to helping people cope with, and improving the quality of life for people with, this chronic liver disorder.

I would like to extend special recognition to the 2011 Honorees: Larry Kinitsky, President, Windsor Park Owners Corporation; and Jack Friedman, Executive Director, Queens Chamber of Commerce. Both have contributed greatly to serving the people of Queens and are truly deserving of their awards. Finally, it is very special that this event honors the memory of Arlene Pino, who was a passionate advocate for parents, students, and teachers. In her ten years on Community School Board 26, her five years as President of the Presidents' Council, and her tenure on the Chancellor's Parent Advisory, Ms. Pino enjoyed the support of all parties whose primary interest was the education of our children. In particular, she always spoke out for the students who receive special education services, who too often do not receive the attention they deserve from our education system. Queens is a better place because Arlene Pino was here.

Congratulations once again to the honorees and to all of the guests who have gathered at today's luncheon.

Sincerely,

MARK S. WEPRIN
Council Member
